-  Time & Attendance

Accounting - SaaS or Outsourced

Our skilled staff provides you "Best-in-Class" accounting and reporting services to help you run your business better. Our web portal and executive dashboard give you immediate access to all financial data down to electronic invoice images. Our information is there when you need it: daily, weekly or monthly.

Payroll- SaaS or Outsourced

FMS prides itself with superior day-to-day payroll support. As part of our service, we provide internal and external reporting, along with regulatory tax filings. Our payroll services offer complete software support and time clock integration to reduce costs.

Fractional CFO Services

Our CFO services provide the part-time, interim, or full-time experience and expertise of a high-end CFO without the commitment of a full-time CFO. We can help manage financial challenges, achieve growth, optimize strategy, implement systems, raise capital, or navigate an audit or transaction.

Tax Planning & Preparation

The FMS Tax Services team has the experience to ensure you are getting all the tax credits currently available. We offer an all-in-one place for accounting and tax preparation without going to an outside accounting firm. Now offering personal, corporate, and non-profit tax services.

Document Imaging

FMS digitizes your paper invoices, payroll, employee documents, contracts, general ledger documents and AR statements. These images are then attached to a transaction in the FMS software for retrieval at a later date.

Shrink & Markdown

Manage your markdowns while tracking and reducing shrink with the FMS' GOT Systems suite of products. Our retailers save real money that grows their bottom line..

Time & Attendance

FMS Labor Saver is a complete time and attendance system that combines a biometric time clock with web-based software that allows you to manage your employee's schedules, department, budgeting, and integration with your POS to improve your scheduling capabilities.

OUTSOURCED ACCOUNTING : : & PAYROLL : :

Streamline your operations with FMS' time-saving, cost-efficient payroll services.

Empower Your Business Strategy: Opt for FMS Payroll Services

*FMS costs
20-40% less
than other
national payroll
services.*

Effortless Record Storage

FMS' document imaging suite simplifies storing key records like IDs, I-9s, insurance forms, and W-4s digitally.

Instant Access

Avoid the stress of traditional filing systems; have every document you need right at your fingertips for easy retrieval, especially crucial for regulatory audits.

Employee Empowerment

Employees have direct access to their check stubs and W-2s, promoting transparency and trust.

Time & Cost Efficiency

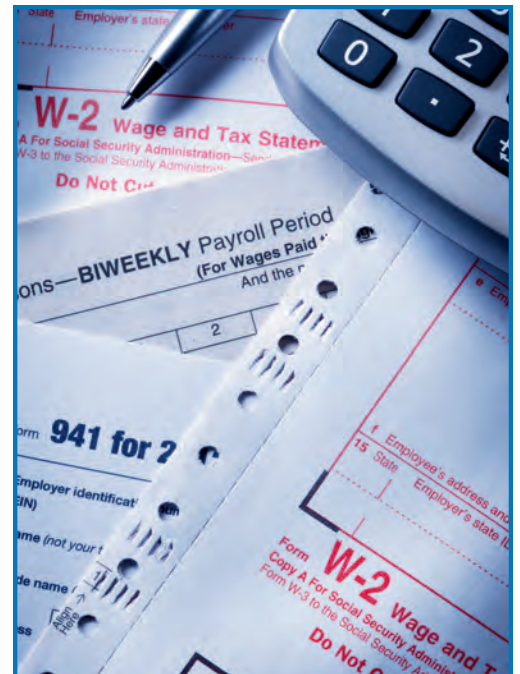

Digital storage reduces back-office workload, saving you time and operational costs.

Adaptability to Regulatory Changes

Stay ahead of evolving regulations with organized, secure, and easily accessible records.

Combat Rising Operational Challenges

Our system provides a strategic advantage amidst rising wages, skilled labor shortages, and turnover by enhancing efficiency and security.

TAX CREDITS

Since 1974, FMS' mission has been to help companies succeed by providing the financial information and support they need to run their businesses.

DON'T LEAVE MONEY ON THE TABLE

FMS' Tax Credits programs ensure you are getting all of the tax credits currently available.

Some customers can see up to \$18,000 in tax credits for every 100 people hired.

TRANSFORM YOUR BUSINESS WITH FMS

Maximized Savings: We ensure all eligible tax credits are identified and claimed, increasing financial returns.

Maximize WOTC with diligent compliance to current tax laws, minimizing penalty risks.

Efficiency in Processing: Streamlined identification and application for tax credits make the process faster and less labor-intensive.

*Maximize returns with precise
tax credit screening from FMS.*

FMS Tax Credit Services

How does it work?

There are various ongoing Federal and State employment-based Federal and State tax credits and incentives for businesses that hire employees in certain economic classes or areas.

FMS has partnered with HR Screening Services, Inc. to offer a custom program for retailers to secure these credits.

Who is eligible?

The Work Opportunity Tax Credit (WOTC) program offers employers a credit against their tax liability for hiring individuals from ten targeted groups, including recipients of Temporary Assistance for Needy Families (TANF), veterans, ex-felons, the long-term unemployed, and others.

Calculating the Incentive

Program	Credit Amount	Maximum	Qualifying Hours
WOTC	40% of first \$6,000	\$2,400	120
Empowerment Zone Tax Credit	20% of first \$15,000	\$3,000	90 days
State Tax Credit Programs	Varies	Varies	Varies
Long-Term TANF	\$4,000 in first year \$5,000 in second year	\$9,000	Varies

DOCUMENT : : IMAGING : :

Since 1974, FMS' mission has been to help companies succeed by providing the financial information and support they need to run their businesses.

WHAT WE DO FOR YOU

Digitize:

- Invoices
- Payroll
- Employee Docs
- Contracts
- General Ledger Docs
- AR Statements
- and more

TRANSFORM YOUR BUSINESS WITH FMS

Enhanced Security: Protects sensitive accounting and payroll information, ensuring better data confidentiality and integrity.

Immediate Accessibility: Instant access to documents speeds up retrieval and processing, enhancing workflow efficiency.

Disaster Recovery: Digital backups safeguard critical financial documents against loss from disasters or accidents.

Cost Reduction: Significantly lowers expenses related to printing, storing, and managing physical documents.

Improved Efficiency: Streamlines accounting and payroll processes, reducing time and effort spent on manual document handling.

*Effortlessly access and manage documents securely
with our comprehensive document imaging.*

FREQUENTLY ASKED QUESTIONS

What is document imaging?

Document imaging uses a PC-based scanner to digitalize your paper invoices, payroll, employees' documents, contracts, general ledger documents, and AR statements and turns them into an image. These images are then attached to a transaction in the FMS Focus Software for retrieval at a future date.

What do I do with the paper invoice after I scan it?

We recommend that you keep the paper invoices for 60 days after you receive the product or service. This will help ensure that if an image is not scanned, it can be retrieved and scanned. Any lack of scanning would most likely be discovered before 60 days, but the time allows an extra barrier, just in case. In addition, other internal controls will prevent this from occurring.

What if a vendor calls with a dispute, and I need a copy of the invoice?

Print the image from the screen or email them the image.

I already have a scanner. Why can't I use the one I own?

The software was designed to function optimally with the scanner we have listed. FMS cannot support scanner equipment issues.

Can I use the scanner for anything or just these images?

We recommend using the scanner only for items relating to your accounts payable, general ledger, payroll, HR, and AR modules.

What if the scanner breaks?

We recommend that you purchase a service agreement to avoid experiencing long-term interruptions.

What are the costs involved?

The costs will vary depending on your needs, but some considerations include:

- Number of images scanned per day
- Number of locations with scanners
- Number of computers with access to images
- On-site training or remote training
- Your specific costs will be:
- Purchasing a scanner
- Maintenance agreement
- Training
- Storage costs of data

What is the return for spending money on a scanner, storage space, and a maintenance agreement?

The cost savings are:

- Research time
- Storage time
- Office space
- Mobility
- Financial audit costs
- Ease of auditing AP and reviewing invoices

How long does it take to install/setup?

The setup of document imaging depends on many factors. The most important is whether or not you maintain a site-to-site VPN connection to the FMS server. If not, the setup will be completed on time, contingent on the VPN running. Overall, the average setup for Document Imaging is about 30 days from Demo to Go Live.

FRACTIONAL CFO SERVICES

CASE STUDY

Since 1974, FMS' mission has been to help companies succeed by providing the financial information and support they need to run their businesses.

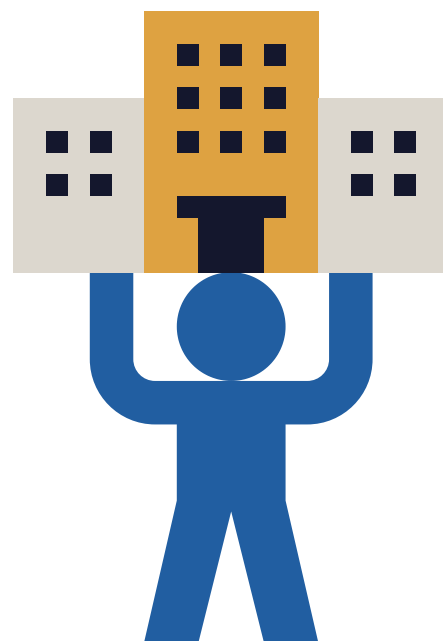

STRATEGIC FINANCE LEADERSHIP: ELEVATING YOUR BUSINESS WITH FRACTIONAL CFO EXPERTISE

In the fast-paced business landscape, agility and expert guidance are pivotal. Sometimes, beyond the scope of a traditional controller, your business may demand the strategic insight of a seasoned CFO—perhaps not full-time, but on an as-needed basis. FMS stands ready to bolster your growth and help seize emerging opportunities swiftly, without the delays of recruitment and onboarding.

Our suite of solutions includes the option of a fractional CFO, providing the leadership and expertise necessary to navigate your business through unique challenges and toward sustained success.

Here's a real-world success story: Discover how one of our clients supplemented their outsourced accounting and payroll by adding the strategic advantages of a fractional CFO with FMS.

We're not just a service provider; we're your partner in profit maximization, backed by five decades of dedicated support to retailers. Let's explore what we've learned and how it can transform your business.

Fractional CFO Services - Case Study

Customer

Darin, the owner of a small grocery chain with 5 stores, joined FMS and our fractional CFO services.

Challenges & Growth

Navigate the growth of the business through mergers and acquisitions with sound legal, accounting and tax strategies. Darin's organization now has grown to over 20 locations.

Milestones to Success

Expertise, strategy and the right connections made growing from 5 to more than 20 locations possible.

- Conducted comprehensive cost segregation studies on real estate assets, optimizing tax savings and enabling strategic write-offs for enhanced financial flexibility.
- Actively contributed to the board of directors, injecting expert insights into the grocery sector and formulating pivotal strategies for robust expansion.
- Synthesized business and real estate planning to forge a cohesive roadmap for sustainable growth and profitability.
- Facilitated a pivotal introduction to a banking partner, solidifying financing for ventures and fortifying the company's credibility in financial negotiations.
- Spearheaded the adoption of cutting-edge accounting software, standardizing financial reporting and enabling effective consolidation across the enterprise.
- Championed the development and execution of rigorous budgeting and forecasting mechanisms, ensuring precise monitoring and management of business performance.
- Connected the company with a specialized legal team, equipping the business with industry-specific legal acumen to navigate complex transactions.
- Overhauled the payroll infrastructure with a sophisticated system, harmonizing payroll processes and reporting for all business units.

TIME & ATTENDANCE ::

Since 1974, FMS' mission has been to help companies succeed by providing the financial information and support they need to run their businesses.

WHAT WE DO FOR YOU

- Create and manage schedules
- Automatically adjust for holidays and overtime
- Integrate with your existing POS system
- Create weekly sales and labor budgets

FMS LABOR SAVER

Labor Saver is a complete time and attendance system that combines a biometric time clock with web-based software that allows you

to manage your employees' schedules, department, budgeting, and integration with your POS to improve your scheduling capabilities.

*Control costs, optimize staffing,
enhance profits.*

Revolutionize Your Workforce Management with Labor Saver

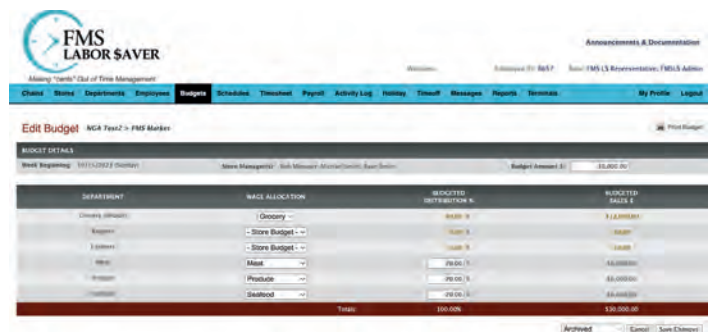

In today's unpredictable economy, labor is in short supply and getting more expensive. Whether it's economic-driven or driven by regulatory increases in minimum wage, FMS' Labor Saver is here to help!

- Set budgets to be sure you are on track for your sales levels.
- Integrate POS data to create a current picture of how your labor percentages stack up against your sales.
- Use this data to adjust schedules for the remainder of the week.

FMS Labor Saver was designed to keep you in charge of your bottom line. Become a profit leader by managing your business with state-of-the-art labor scheduling technology.

Making "cents" Out of Time Management

Set weekly budgets for each department as a percentage of sales

Manage employees' schedules by department, see scheduled hours vs. actual hours, and check accuracy with the built-in calculator.

GOT SYSTEMS

Since 1974, FMS' mission has been to help companies succeed by providing the financial information and support they need to run their businesses.

Why Use GOT?

- Smartest scanners on the market
- Track shrink by department and reason
- Track departmental and inter-store transfers
- Create and track markdowns
- Manage a warehouse or backroom inventory

Experience Excellence with
GOT Systems: Over 30 Years
Supporting Independent Grocers.
Now Proudly Part of
FMS Solutions Since 2021

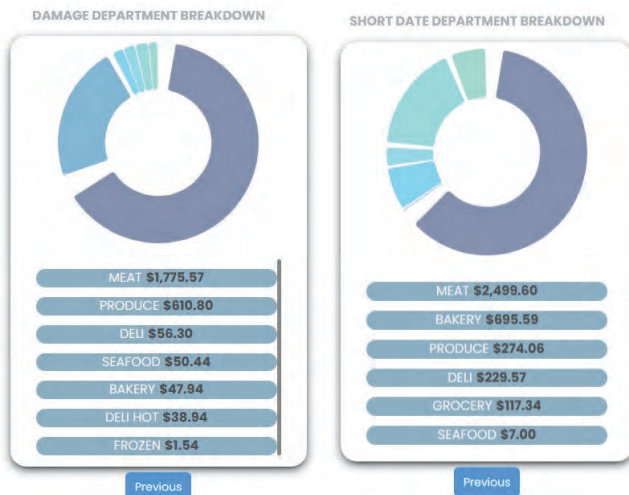

*Reduce product cost, reduce stock levels,
save labor, support customers and more.*

Contact: Doug.Haworth@fmssolutions.com • 417-399-1871 • FMSsolutions.com

INVENTORY

- Take inventory on your schedule
- Utilize your own team to conduct inventory
- Receive PDF or Excel reports or view inventory data on the GOT portal
- Utilize inventory levels to help train order writers
- Inventory seasonal items packed away
- Works on PLU, UPC and scale labels

GOT PORTAL

MARKDOWN & SHRINK

- Creates labels on demand so stores can sell product at a reduced price
- Tamper-resistant label design
- Integrated with GOT's Shrink Management solution to manage shrink and markdowns seamlessly
- Customizable markdown rules by department, UPC or PLU
- Track markdowns and shrink by department, item, and reason
- Daily and weekly reporting of markdowns and shrink by department, reason, UPC or PLU
- Track departmental and inter-store transfers
- Minimize unnecessary waste
- Online querying tools

GRIND LOG

- Comply with USDA regulations
- Easy to use electronic grind log
- Tracks all beef going into grinder
- Tracks grinder cleaning, trim use, case pulls, packages made, and pounds of meat
- Allows inventorying of meat cooler and freezer including expiration dates

TRACK-IT! MARKDOWN & SHRINK TRACKING

Since 1974, FMS' mission has been to help companies succeed by providing the financial information and support they need to run their businesses.

Shrink Tracking & Markdown Benefits

- Get more money out of your discontinued, close-dated, damaged, or leftover seasonal products.
- Set policies and monitor adherence with extensive detailed reporting.
- Customize markdown rules by department, package value, UPC, or PLU.
- No more use of general, uncontrolled discount stickers.
- View your data online with the GOT portal.
- Track all known losses, department transfers, and store-to-store transfers.
- Get electronic data feeds by PLU/UPC.
- Flexible reporting options available.

GOT Portal

The first step to reducing shrink is to identify it!

Contact: Doug.Haworth@fmssolutions.com • 417-399-1871 • FMSsolutions.com

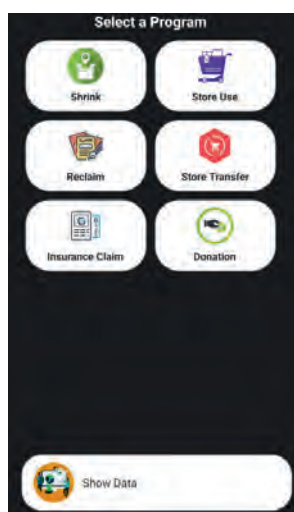

SHRINK

- Shrink tracking for all products in the store.
- Captures user, UPC/PLU, reason amount, date/time, and more.
- Categorizes shrink by reason, department, and more for analytics
- Daily and weekly reporting of shrink by department, reason, UPC, or PLU.
- Measures the effectiveness of the store's markdown program.
- Includes departmental and store transfer tracking as well as recording waste.
- Record detail of all products that are donated to non-profit organizations.

MARKDOWN

- Generates labels on demand so stores can sell product reduced instead of throwing away.
- Tamper-resistant label design.
- Markdown items for all departments.
- Customizable markdown rules are available by department.
- Categorize reasons why items are marked down to help make decisions.
- Daily and weekly reporting of markdowns and associated shrink by department, reason, UPC or PLU, and electronic data feeds available.
- Measures the effectiveness of the store's markdown program.
