FMS Sirius™

FMS Track-It™

The Real-Time Dashboard Built for Independent Grocers

Finally — Data That Works as Fast as You Do

Profit Hound™ is your single pane of glass — a real-time, tablet and browser-friendly dashboard that aggregates your financial, operational, and labor data across all FMS applications. Accessible on Apple or Android devices, it delivers instant insight, decision support, and intelligent recommendations so you can respond faster to what's impacting your business.

No spreadsheets. No delays. Just clarity and control — all in one place.

- Real-time dashboards for company, department, and location views
- Visual performance insights you can act on immediately
- Drill down by store, team, or time period
- Replaces up to 40% of manual tasks
- Eliminates reporting delays and spreadsheet errors
- Scales easily across multi-store operations

Smarter Decisions. Fewer Surprises. More Control.

Profit Hound™ is built for how grocers actually operate — fast-moving, detail-heavy, and margin-focused. It helps you:

- Spot issues before they hit your bottom line
- Make faster decisions with less second-guessing
- Reduce costly delays caused by bad or late data
- Free your team from manual reporting
- Gain strategic visibility at every level of the business

Want to be among the first to experience Profit Hound™ in action? Schedule your exclusive preview today and see how this new platform can transform your operations — from daily tasks to long-term strategy.
