

Grocery Inventory That Works for You

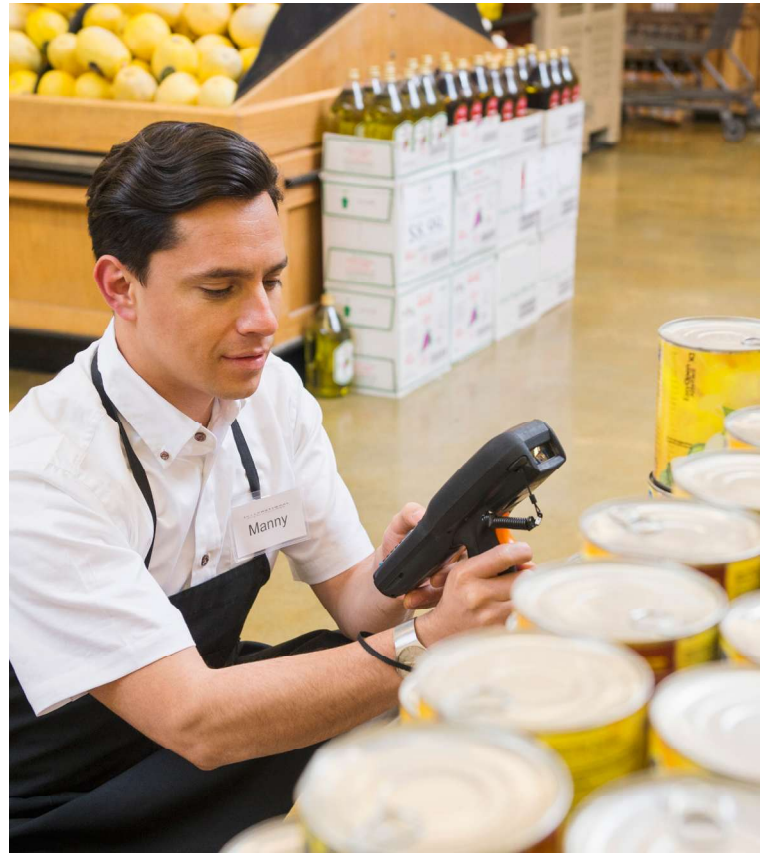

GOT Systems is now FMS Track-It™

The same powerful inventory solution, purpose-built for independent grocers, with the same trusted tools, support, and results you depend on.

Track-It™ helps you reduce shrink, catch costly errors, and optimize inventory across every department and location — without disrupting your workflow.

Already using GOT? Nothing's changed but the name. Your data, setup, and day-to-day tools remain exactly the same — just with a sharper name and a continued focus on your success.

- ▶ Inventory Visibility
- ▶ Shrink Alerts
- ▶ Smart Reordering
- ▶ Multi-Store View
- ▶ Seamless Integration
- ▶ Perishable Tracking
- ▶ Grind Log Compliance
- ▶ Markdowns

Why Choose FMS and Track-It™?

- ▶ Comprehensive Solutions: From shrink and markdown tracking to product ordering and grind log management, Track-It™ delivers tools tailored to your needs.
- ▶ Data-Driven Insights: Empower your team with real-time data and actionable reports to identify and address problem areas.
- ▶ Streamlined Operations: Optimize inventory, track known losses, and manage transfers with ease, all while saving time and resources.
- ▶ Proven Results: Join hundreds of independent grocers who've reduced shrink and improved profitability using FMS and Track-It™.

Profit Protection System

Gain actionable insights with daily and weekly reports to track and reduce shrink. Compare performance across stores, record losses into your financial system, and empower your team with data.

Markdown Program

Simplify markdowns with customizable labels and track reductions by day, week, or department. Clear slow-moving inventory while increasing efficiency and profitability.

Track-It™ Program

Easily record known losses, manage transfers, and document donations or store-use items. Simplify insurance claims with detailed, ready-to-use records.
